John T. Griffey, by his attorneys, Cook, Cummins & Dawson, filed Saturday with Circuit Clerk Rathbun, a petition for a writ of habeas corpus for the possession of his child. CITY TAX LEVIES

A 7-MILL ONE ORDERED BY THE CITY COUNCIL

VILES AGAIN APPOINTED

Not Confirmed—City Engineer and Street Commissioner Combined, F. L. Flynt Is Appointed

At the city council meeting held Friday evening and which lasted until 1:30 o'clock this morning, the tax levies for the coming year were made as follows:

General fund 1½ mills; water bond sinking fund 1½ mills; water bond interest fund 2½ mills; library fund 1 mill; paving bond sinking fund ¼ mill; paving bond interest fund ¼ mill; making a total of 7 mills; the same as last year.

Mayor Wright submitted the appointment of Steve Viles as night policeman to the council, but the council voted against the confirmation. The Mayor then appointed him for one month. Rumors have it that the council will never confirm Viles for this position and there have been some talk of abolishing the office.

Charles Jackson was appointed street sweeper by Mayor Wright but the council refused to confirm the appointment by a six to two vote.

Jackson was then selected by Mayor Wright for one month. Jackson cusceeds Shube Woodard, who was not an applicant again. It is said that Jackson has only been a resident here for the past few months.

Frank Partridge lost his job, that of street commissioner, as the council adopted an ordinance combining the offices of street commissioner and city engineer at a salary of $100 a month. Mayor Wright appointed F. L. Flynt for the new position and this selection was confirmed by the council. Partridge has only been street commissioner for one month, and was not confirmed by the council.

An ordinance was presented for the license tax on certain vehicles and conveyances, conveying passengers for hire. The ordinance will come up at the next meeting. It applys to motor vehicle and to make the license uniform with the state, so much per horsepower.

Another ordinance presented and adopted was that requiring all parties to obtain a sidewalk paving permit, at a fee of $1, before constructing and also obtaining a grade for same from the city engineer. The ordinance also provides that the sidewalk to be under the supervision of the city engineer and street commissioner while being constructed.

Balances now on hand in the sewer sinking fund and sewer interest fund, both bond issues having been paid, were ordered transferred to the lateral sewer fund. The balances were $230.

John H. Sewell appeared before the board in behalf of the welfare committee of the commercial club and presented a petition in relation to a sanitary plumbing ordinance and also a petition in regard to the repair of the paving and the marking of the streets. The petitions were taken under consideration and will be acted upon at the next meeting.

J. F. Hull, president of the Commercial club, was present at the council meeting with a request that the council donate $10 a month to this club for a period of one year. The petition was granted by the council.

A report of the petition requesting the change of the width of Seventh street, from Mulberry street on to the Normal grounds, on the north side, was taken up and it was ordered to change the sidewalk to a point six feet south of the property lines instead of five. This was done in order to save the shade trees along this side of the street.

The fire chief, Burt Rowley, was ordered to purchase two fire extinguishers for the fire wagon. The council also bought two city directories.

Additional street lights wanted on Fifth and Water streets were referred to the light committee.

The removal of the barn of Mrs. Ed. Baker out of the alley on Walnut street between 6th and 7th streets was referred to the street committee.

The board adjourned until the next regular meeting night to be held on July 3.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

No, Indeed

When a fellow's kind of seedy
And run over at the heels;
When he shows that he is needy
And irregular at his meals,
When his luck has left him groping
Where the gloom is thick and deep,
When he has no cause for hoping
And the way ahead is steep,
Do the people hurry to him,
Having friendly words to say?
Are they eager then to do him
Such fair favors as they may?
No, indeed!

Son, just bear this fact in mind;
Friends are mighty hard to find
When a friend is what you need.

When a fellow's feeling lonely
And the world's a cheerless place;
When he'd brace up if he only
Could behold a friendly face;
When his spirit has been broken
And he's weary and oppress,
When a friendly word well spoken
Would put courage in his breast,
Is there anyone to greet him
With the word he longs to hear?
Is there anyone to meet him
With a message of good cheer?
No, indeed!

Son, as soon as you have shown
You can win out all alone
You'll have all the friends you need.

Unreasonable.

"Now, I'll tell you what I'd do with that boy if I were in your place. I'd make him start tomorrow to—"

"You haven't any boys of your own have you?"

"No."

"But you have about $1,000,000?"

"Well, something like that."

"Now, I'll tell you what I'd do with that million if I were in your place I'd start out tomorrow to—"

"Oh, pshaw, what's the use talking to a man who won't listen to reason!"

One Thing Sure.

"I can't help wondering sometimes whether my income is big enough to warrant me in getting married."

"I don't know how big your income is, but I can tell you one thing."

"What's that?"

"If you are in any doubt about your ability to get along after the wedding you don't love the girl enough to risk marrying her."

That Would Be Fatal.

"I have been supporting most of my wife's relatives for the past six years."

"I should think you'd get tired of that."

"I do and sometimes I become so desperate that I can hardly keep from letting my wife know about it."

Jasper Best died at the county farm on Saturday morning, after a short illness. Mr. Best was formerly a section hand. He was born in England. His exact age was not known. The funeral was held Saturday afternoon at the county farm. Burial services took place at the Oak Hill cemetery.

DEATH OF JUDGE B. P. DUFFY.

A Former Maryville Newspaper Man Dies At His Home in Cottonwood, Idaho, May 18.

Judge B. P. Duffy, who was editor of the Maryville Advocate, a newspaper published about 18 years ago, died May 18, at his home in Cottonwood, Idaho. Mr. Duffy was editor of the paper for about two years and he and his family were residents of this city for a number of years and are well remembered here by the older residents.

The Chronicle of Cottonwood, Idaho, in speaking of Mr. Duffy's death says:

After an illness of about two months, three weeks of which time he was confined to his bed, Judge B. P. Duffy passed away at his home in this city about 8 o'clock Monday morning, his death being due to kidney trouble and a general break down due to old age. The last hours of the deceased were spent in great suffering, and during his last illness a hard fight was made to save his life but his disease was such as to baffle treatment.

The deceased came to Cottonwood some seven years ago and engaged in the practice of law and collecting of accounts. During this time he built up a lucreative practice and acquired a nice residence property in the north end of town.

Bernard Paine Duffy was born in County Louth, Ireland, April 17, 1839. In 1851 the family emigrated to America, locating in Brimfield, Ill., where Judge Duffy resided until 40 years of age. Maryville, Mo., was the next residing place of the family, the deceased spending almost 20 years of his life there, and then taking up his residence in Nebraska. In 1905 the family located in Lewiston, making their residence there for two years, then coming to Cottonwood, residing here since. Admitted to the bar in Peoria, Ill., in 1877, Judge Duffy took up the practice of law, which he followed continuously during his long term of life. At times he conducted newspapers in different sections, his last enterprise in this line being the Lewis County Leader, published at Vollmer. During his residence in Nebraska Judge Duffy took an active interest in politics, and in 1896 stumped the entire state in the interest of Bryan's candidacy for the presidency. Since that time the same interest had been displayed in public affairs, and while not an office seeker, at times he had been honored with positions calling upon his legal training. A man of fine character, and one composing fine citizenship, Judge Duffy's life was the highest exemplification of manhood, and his loss will be mourned by this entire community. Aside from a wife, he is survived by six sons and one daughter, a sister and three half-brothers. The children are James S. Duffy, Peoria, Ill.; Emmett E. and Charles P. Duffy of Spokane; George W. Duffy of Pueblo, Colo.; Peter P. Duffy, mayor of El Reno, Okla., now a candidate for lieutenant governor of that state; B. P. Duffy of Lewiston and Mrs. M. L. Wiggins of Kansas City, Kan. Judge Duffy's sister is Mrs. M. A. Redfield of Pullman, Wash.

The funeral was held Wednesday morning, May 20, from the local Catholic church, the services being in charge of the local order of Knight of Columbus, of which order the deceased was a member, and the remains were laid to rest in the Catholic cemetery, a large number of friends of the deceased attending the last rites. Besides the wife, a sister and three sons, B. P., Charles and Emmett Duffey, were present at the funeral.

MADE A HIT AT CLARINDA.

Paper of That Town Speaks Well of Show Put on by Maryville Players

The following is what the Clarinda Herald had to say about "A Night in Bohemia," which was presented at the opera house in that town by Maryville players.

The company of young people of Maryville, Mo., who presented a local talent play in Clarinda last Friday evening made a decided hit with the production. The evening's entertainment was entitled, "A Night in Bohemia," and consisted of a novel ministrel show for the first of the evening's entertainment and was followed by a number of vaudeville acts following.

The part entitled "A Night in Bohemia" consisted of songs by the various people and of jokes. The music was fine and the chorus work took especially well.

A short one act comedy "Up in the Air" came next. There were five characters in this play all of whom did excellent work. The cross fire singing and talking act which followed took well. A piano trio followed that with a little program of a varied nature which proved as popular as any of the numbers. Some of their work was first class. The evening's entertainment wound up with a sextette from "Lucia" served "A'La Rag" and it proved most popular.

The entertainment was a good clean one of its kind and was interesting enough to hold the audience until after eleven o'clock. The house which Clarinda extended to her visitors was not as good as might have been. But this was due partially to the great number of attractions which were going on last week due to commencement season and it is hoped that Maryville will come again and give us another chance to prove ourselves better hosts.

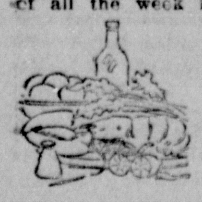
HELPS FOR BUSY DAYS.



Sunday is too often the hardest day of all the week for the housewife, when it should be the day of rest. In many homes the Sunday dinner is planned with the idea of making the day as restful as possible, getting everything ready the day before. Even the meat may be roasted and served reheated, the salad made, the dessert made, and when it is time for the meal it may be quickly served, leaving an afternoon of leisure.

Monday, if the laundry work is done at home, which is the case in a great majority of homes, and by the house mother herself, should be a day of easy meals. When possible the meal that comes next may be partly prepared while the previous meal is being cleared away. For example, if hashed brown potatoes are to be served for supper or dinner, get them ready and put them in the icebox ready for cooking at the dinner hour.

Cucumbers cut in eighths and cooked in water until tender and served in a cream sauce are a delicious change when cucumbers are plentiful. These may be prepared ready for cooking and will be a tasty dish to serve with or on toast.

Dishes of cheese, such as souffles, are always welcome and are easily and quickly prepared.

Stewed tomatoes with rice, tomatoes stuffed with buttered crumbs and baked, rice with cheese are some of the ways to prepare a good dish and in little time.

The chafing dish is an oasis in the life of a busy woman for many dainty dishes may be served from it, and they are always a delight.

Steaks and chops are meats that are quickly prepared and should be a busy woman's resource on full days. Meats may be reheated, not so with egg and cheese dishes; they are made tough and indigestible when reheated.

A handful of vegetables left over will often give a plain soup an entirely different flavor.

BERKMAN SEEKS RECRUITS

Efforts Are Being Made to Maintain Peace in Tarrytown.

Tarrytown, N. Y., June 6.—Renewed efforts on the part of the local police department and Sheriff Doyle of Westchester county to maintain the peace of this village marked the close of the first week of the fight being waged by Alexander Berkman and others for the right to hold public meetings in protest of the policy pursued by John D. Rockefeller, Jr., with reference to the Colorado mine strike.

While Berkman was in Brooklyn and New York in search of recruits for an army which he declared will invade Tarrytown to hold a demonstration, Sheriff Doyle was marshaling a force capable of handling a crowd of 200 persons and if possible prevent a recurrence of last Saturday's clash, when thirteen Industrial Workers of the World were arrested.

French Aviators Killed.

Dijon, France, June 6.—Two French aviators, Lieutenant Gironne and Sapher Rioux, were killed near here. Peasants watching an aeroplane which had risen from the military aviation station and which was flying swiftly at an altitude of half a mile over the forest of Caquette, saw a burst of flame and heard an explosion. A few moments later the fragments of the aeroplane, to which the aviators were strapped, fell among the trees.

CARAMEL AS FLAVORING.

There is no flavor which is so cheap and so easy to prepare and withal so well liked as caramel flavor. The caramel custard is popular among all people where it is once tried, but many do not know of this wholesome and good flavor. To make the caramel put granulated sugar in a clean, smooth saucepan and stir constantly while it is melting, do not let it overbrown, add a few drops of water or more if it is to be bottled and kept for flavoring and coloring sauces, and then it is ready to use. If making a custard turn into the milk as soon as it becomes a golden color.

Sweet potatoes cooked in this caramel sirup in the oven are most delicious. Apples quartered and baked with the caramel added to them and basted over them while cooking is a most delicious way of serving apples. Then the fruit may be served with cream and sugar.

Caramel ice cream is a most delicious frozen dessert.

Caramel flavor in boiled frosting for filling in cake is a most delicious one. The sugar may be browned and water added to it, then add the flavoring to boiled sugar sirup, and pour over the whipped egg as in making any boiled frosting.

Caramel Cream.—Caramelize one-third of a pound of white sugar, add a few drops of water, stirring occasionally to keep the sugar from sticking, when it becomes a golden color turn it quickly into a quart of boiling hot milk. Beat the yolks of six or eight eggs, and pour over them the hot milk slowly. When the eggs are cooked set away to become cold before serving. This is a nice custard to serve with sponge cake.

When baked custards are liked pour into each cup before adding the custard enough of the caramel to coat the inside of the cup, then add the custard and cook. When they are turned out, the outside will be covered with the caramel. Serve with whipped cream.

ARMS LANDED AT TAMPICO

American Schooner Lands Munitions for Mexican Rebels.

INFORMATION AT WASHINGTON

State Department Officials Decline to Verify the Report, However—Rumor Current Protest Has Been Filed Against Delivering Arms.

Washington, June 6.—Advices reaching Washington that the American schooner Sunshine, from Galveston, had landed ammunition at Tampico for the Mexican constitutionalists without interference on the part of the United States or the Huerta government was received in official circles here without comment.

State department and navy department officials declined to verify the report, but from other sources it was learned that the presence of the Sunshine off Tampico, with arms aboard consigned to the constitutionalists, had been known to the Washington government for several days. In view of the fact that there had been considerable apprehension regarding the attitude the United States might take toward the landing of ammunition at this Mexican port, the actual delivery of munitions of war for the enemies of the Huerta government without interference was regarded with significance.

With the Cuban steamer Antilla en route from New York to Tampico with arms consigned to Carranza's forces, there has been much speculation as to what the United States would do in case the Huerta government should attempt a blockade of the port. Every indication, however, was that the United States would maintain its previously announced position that Tampico was an open port.

Should the Huerta gunboats at Puerto Mexico and Alvarado manifest any signs of moving toward Tampico, Admiral Badger was instructed to report at once to Washington. The Mexican vessels have since been kept under close surveillance.

Report of a Protest.

The movements of arms, pending results of mediation at Niagara Falls and the proposals to the constitutionalists to participate in the peace negotiations, have been followed by rumors of disapproval on the part of the South American envoys engaged in the effort to compose the Mexican situation. In fact there have been widespread reports that the mediators had protested against the United States permitting the delivery of ammunition to the constitutionalists at Tampico.

Secretary Bryan declared, however, that the state department had received no protest from the mediators and he also denied reports that Mr. Riano, the Spanish ambassador, who represents the interests of General Huerta in the United States, had protested against the delivery of munitions of war to the constitutionalists.

HISTORIC CHURCH BURNED

Campaign of Arson Continued in England by Suffragettes.

London, June 6.—The campaign of arson and attempts at destruction of property by means of bombs was continued by the militant suffragettes.

Breadsall church, a historic edifice near Derby, was destroyed and an amateurish bomb was found in Dudhope castle, near Dundee. The fuse of the bomb had been extinguished by the wind.

Sylvia Pankhurst, borne to the platform on an invalid chair, made another appearance at a suffrage meeting in Cannington and repeated her threat that she would lie on the steps of the house of commons without food or water until Premier Asquith consented to receive a deputation of her followers.

Ulsterites Get 3,000 More Rifles.

Belfast, June 6.—The army of the Ulster "volunteers" was strengthened by the addition of 3,000 Mauser rifles, as the result of a daring gun-running feat of an Irish yachtsman. A portion of the consignment was landed to the south of Donaghade, sixteen miles from Belfast, but most of the rifles were delivered straight on the quay at Belfast and the cases were removed under the eyes of the police by specially selected volunteers.

Kelly's Army in Indiana.

Fort Wayne, Ind., June 6.—Fifty-one tattered and footsore men, the remnant of Kelly's army, which left Sacramento, Cal., weeks ago, with Washington as its destination, reached Fort Wayne. They are quartered now at the police detention station under charges of vagrancy and Police Judge Keorr declared his intention of putting them to work.

Heat Wave Still Hangs On.

Kansas City, June 6.—Kansas, Oklahoma and western Missouri again sweltered under the heat wave. Sedalia reported 94 degrees and St. Joseph 93. In Kansas City the maximum was 90. In Kansas records for the year were set at Manhattan, with 97 degrees. Few prostrations were reported.

TRADE CONDITIONS BETTER

Jobbers Find a Broadening of Trade in the Northwest.

New York, June 6.—Bradstreet's says:

"Sentimentally and fundamentally, trade conditions are better even though irregularity is still in evidence. Jobbers' trade at many points outside of the southeast and particularly in the northwest, has broadened; larger sales of southern pig iron are noted; wool is active at strong prices; textile mills are fairly well employed; crop conditions have improved; railway traffic is heavier.

"On the other hand, finished steel takes tone principally from sentiment and not from any actual growth in business; employment is irregular; industrial operations, taken in a collective sense, are relatively slow.

"Failures for the week are 248; wheat exports, 4,802,639 bushels; bank clearings, $3,231,327,000, an increase of 0.4 per cent over last year."

ANTI-TRUST BILLS PASSED

Measures Go Through House by Nearly Unanimous Vote.

FAVORED BY ADMINISTRATION.

But Fifty-four Votes Recorded Against Clayton Omnibus Bill—Trade Commission Measure Is Passed Without a Record Vote Being Taken.

Washington, June 6.—All three bills on the administration trust legislation program passed the house and were sent to the senate for action. Opposition melted when the final test came and the motion went through quickly.

The interstate trade commission bill, the first measure on the administration trust legislation program, was passed by the house without a record vote.

The Clayton omnibus anti-trust bill, second on the program, was passed by a vote of 275 to 54. The house then voted on the third and last of the trust measures, the railroad capitalization bill, which passed, 325 to 12.

The clerk hardly had finished the last roll call before the members had settled down to consideration of the sundry civil appropriation bill, one of several supply measures that must be disposed of before the session ends. The adjournment problem now is squarely up to the senate, and the Democratic leaders on that side of the capitol are expected to agree upon a program in the near future.

Action on the trust bills in the house came unexpectedly. The three measures had been agreed to in committee of the whole after weeks of speech-making. When the trade commission bill came before the house for a final vote, Progressive Leader Murdock moved that it be sent back to the interstate commerce committee, with instructions to report the Murdock bill as a substitute. This was rejected, 151 to 19, and the pending bill was passed without a roll call. Then the votes on the other two measures were taken in rapid succession.

Representative White of Ohio was the only Democrat to vote against the Clayton bill, and all the Progressives voted for it except Representative Chandler of New York. Forty-three Republicans and sixteen Progressives joined the majority in supporting the measure.

TOLLS DEBATE NEARS END

Decks Cleared in Senate for Vote on Exemption Repeal.

Washington, June 6.—The senate cleared the decks for the vote on the tolls exemption repeal, and leaders were hopeful that general debate on the subject may be brought to a close today and the bill and all the amendments proposed to it disposed of early next week.

Senator Cummins concluded his speech on the subject and leaders hope that Senators Poindexter and La Follette, who are understood to have prepared speeches, will conclude before adjournment tonight. Then the way will be open for a vote on the amendments Monday, and it was believed that the bill itself might be reached Tuesday.

Another complication faced the senate in the Panama canal tolls exemption dispute when Senator Sutherland introduced as an amendment to the repeal bill his resolution for arbitration. The Sutherland resolution was approved by the foreign relations committee several days ago, but had no right of way before the senate. Its appearance as an amendment means that it must be voted on before the bill itself.

President Wilson is understood to have expressed an unwillingness to arbitrate before the repeal is passed and many senators who are standing with the president, but who favor arbitration, are in a quandary.

Hodges Denies Striking Mrs. West.

Topeka, June 6.—Governor George H. Hodges flatly denied he struck Mrs. Luella West of Wichita during a scuffle for the possession of certain parole papers in the governor's office on April 8 last. The governor was testifying in the suit brought by Mrs. West for $2,315 damages for an alleged assault and battery. It is expected the case will go to the jury today.

WANTS POSSESSION OF CHILD

John T. Griffey Files Petition for Writ of Habeas Corpus to be Taken up Monday

John T. Griffey, by his attorneys, Cook, Cummins & Dawson, filed Saturday with Circuit Clerk Rathbun, a petition for a writ of habeas corpus for the possession of his child. The petition states that Mr. Griffey is the father of an infant female, Jessie Scitt Griffey, two months old and that the child is being illegally restrained of her liberty by her grandmother, Mary J. Scott, who holds it in her custody and keeping and deprives the petitioner the custody of the child.

The hearing will take place before Judge W. C. Ellison Monday morning and Mrs. Scott will be represented by Shinabargar, Blagg & Ellison. A large number of witnesses are being subpoenaed.

Mrs. Griffey, the mother of the child, died the latter part of April, and after her death, her husband took out letters of administration in probate court. A few days after the will of Mrs. Griffey was filed which left the estate, which is estimated at $50,000 to her child and her mother. Nothing in the will was said about her husband. CITY TAX LEVIES

A 7-MILL ONE ORDERED BY THE CITY COUNCIL

VILES AGAIN APPOINTED

Not Confirmed—City Engineer and Street Commissioner Combined, F. L. Flynt Is Appointed

At the city council meeting held Friday evening and which lasted until 1:30 o'clock this morning, the tax levies for the coming year were made as follows:

General fund 1½ mills; water bond sinking fund 1½ mills; water bond interest fund 2½ mills; library fund 1 mill; paving bond sinking fund ¼ mill; paving bond interest fund ¼ mill; making a total of 7 mills; the same as last year.

Mayor Wright submitted the appointment of Steve Viles as night policeman to the council, but the council voted against the confirmation. The Mayor then appointed him for one month. Rumors have it that the council will never confirm Viles for this position and there have been some talk of abolishing the office.

Charles Jackson was appointed street sweeper by Mayor Wright but the council refused to confirm the appointment by a six to two vote.

Jackson was then selected by Mayor Wright for one month. Jackson cusceeds Shube Woodard, who was not an applicant again. It is said that Jackson has only been a resident here for the past few months.

Frank Partridge lost his job, that of street commissioner, as the council adopted an ordinance combining the offices of street commissioner and city engineer at a salary of $100 a month. Mayor Wright appointed F. L. Flynt for the new position and this selection was confirmed by the council. Partridge has only been street commissioner for one month, and was not confirmed by the council.

An ordinance was presented for the license tax on certain vehicles and conveyances, conveying passengers for hire. The ordinance will come up at the next meeting. It applys to motor vehicle and to make the license uniform with the state, so much per horsepower.

Another ordinance presented and adopted was that requiring all parties to obtain a sidewalk paving permit, at a fee of $1, before constructing and also obtaining a grade for same from the city engineer. The ordinance also provides that the sidewalk to be under the supervision of the city engineer and street commissioner while being constructed.

Balances now on hand in the sewer sinking fund and sewer interest fund, both bond issues having been paid, were ordered transferred to the lateral sewer fund. The balances were $230.

John H. Sewell appeared before the board in behalf of the welfare committee of the commercial club and presented a petition in relation to a sanitary plumbing ordinance and also a petition in regard to the repair of the paving and the marking of the streets. The petitions were taken under consideration and will be acted upon at the next meeting.

J. F. Hull, president of the Commercial club, was present at the council meeting with a request that the council donate $10 a month to this club for a period of one year. The petition was granted by the council.

A report of the petition requesting the change of the width of Seventh street, from Mulberry street on to the Normal grounds, on the north side, was taken up and it was ordered to change the sidewalk to a point six feet south of the property lines instead of five. This was done in order to save the shade trees along this side of the street.

The fire chief, Burt Rowley, was ordered to purchase two fire extinguishers for the fire wagon. The council also bought two city directories.

Additional street lights wanted on Fifth and Water streets were referred to the light committee.

The removal of the barn of Mrs. Ed. Baker out of the alley on Walnut street between 6th and 7th streets was referred to the street committee.

The board adjourned until the next regular meeting night to be held on July 3.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

by HENRY HOWLAND

No, Indeed

When a fellow's kind of seedy
And run over at the heels;
When he shows that he is needy
And irregular at his meals,
When his luck has left him groping
Where the gloom is thick and deep,
When he has no cause for hoping
And the way ahead is steep,
Do the people hurry to him,
Having friendly words to say?
Are they eager then to do him
Such fair favors as they may?
No, indeed!

Son, just bear this fact in mind;
Friends are mighty hard to find
When a friend is what you need.

When a fellow's feeling lonely
And the world's a cheerless place;
When he'd brace up if he only
Could behold a friendly face;
When his spirit has been broken
And he's weary and opprest,
When a friendly word well spoken
Would put courage in his breast,
Is there anyone to greet him
With the word he longs to hear?
Is there anyone to meet him
With a message of good cheer?
No, indeed!

Son, as soon as you have shown
You can win out all alone
You'll have all the friends you need.

Unreasonable.
"Now, I'll tell you what I'd do with that boy if I were in your place. I'd make him start tomorrow to—"
"You haven't any boys of your own, have you?"
"No."
"But you have about $1,000,000?"
"Well, something like that."
"Now, I'll tell you what I'd do with that million if I were in your place I'd start out tomorrow to—"
"Oh, pshaw, what's the use talking to a man who won't listen to reason!"

One Thing Sure.
"I can't help wondering sometimes whether my income is big enough to warrant me in getting married."
"I don't know how big your income is, but I can tell you one thing."
"What's that?"
"If you are in any doubt about your ability to get along after the wedding you don't love the girl enough to risk marrying her."

That Would Be Fatal.
"I have been supporting most of my wife's relatives for the past six years."
"I should think you'd get tired of that."
"I do and sometimes I become so desperate that I can hardly keep from letting my wife know about it."

Jasper Best died at the county farm on Saturday morning, after a short illness. Mr. Best was formerly a section hand. He was born in England. His exact age was not known. The funeral was held Saturday afternoon at the county farm. Burial services took place at the Oak Hill cemetery.

DEATH OF JUDGE B. P. DUFFY.

A Former Maryville Newspaper Man Dies At His Home in Cottonwood, Idaho, May 18.

Judge B. P. Duffy, who was editor of the Maryville Advocate, a newspaper published about 18 years ago, died May 18, at his home in Cottonwood, Idaho. Mr. Duffy was editor of the paper for about two years and he and his family were residents of this city for a number of years and are well remembered here by the older residents.

The Chronicle of Cottonwood, Idaho, in speaking of Mr. Duffy's death says:

After an illness of about two months, three weeks of which time he was confined to his bed, Judge B. P. Duffy passed away at his home in this city about 8 o'clock Monday morning, his death being due to kidney trouble and a general break down due to old age. The last hours of the deceased were spent in great suffering, and during his last illness a hard fight was made to save his life, but his disease was such as to baffle treatment.

The deceased came to Cottonwood some seven years ago and engaged in the practice of law and collecting of accounts. During this time he built up a lucreative practice and acquired a nice residence property in the north end of town.

Bernard Paine Duffy was born in County Louth, Ireland, April 17, 1839. In 1851 the family emigrated to America, locating in Brimfield, Ill., where Judge Duffy resided until 40 years of age. Maryville, Mo., was the next residing place of the family, the deceased spending almost 20 years of his life there, and then taking up his residence in Nebraska. In 1905 the family located in Lewiston, making their residence there for two years, then coming to Cottonwood, residing here since. Admitted to the bar in Peoria, Ill., in 1877, Judge Duffy took up the practice of law, which he followed continuously during his long term of life. At times he conducted newspapers in different sections, his last enterprise in this line being the Lewis County Leader, published at Vollmer. During his residence in Nebraska Judge Duffy took an active interest in politics, and in 1896 stumped the entire state in the interest of Bryan's candidacy for the presidency. Since that time the same interest had been displayed in public affairs, and while not an office seeker, at times he had been honored with positions calling upon his legal training. A man of fine character, and one composing fine citizenship, Judge Duffy's life was the highest exemplification of manhood, and his loss will be mourned by this entire community. Aside from a wife, he is survived by six sons and one daughter, a sister and three half-brothers. The children are James S. Duffy, Peoria, Ill.; Emmett E. and Charles P. Duffy of Spokane; George W. Duffy of Pueblo, Colo.; Peter P. Duffy, mayor of El Reno, Okla., now a candidate for lieutenant governor of that state; B. P. Duffy of Lewiston and Mrs. M. L. Wiggins of Kansas City, Kan. Judge Duffy's sister is Mrs. M. A. Redfield of Pullman, Wash.

The funeral was held Wednesday morning, May 20, from the local Catholic church, the services being in charge of the local order of Knight of Columbus, of which order the deceased was a member, and the remains were laid to rest in the Catholic cemetery, a large number of friends of the deceased attending the last rites. Besides the wife, a sister and three sons, B. P., Charles and Emmett Duffey, were present at the funeral.

MADE A HIT AT CLARINDA.

Paper of That Town Speaks Well of Show Put on by Maryville Players

The following is what the Clarinda Herald had to say about "A Night in Bohemia," which was presented at the opera house in that town by Maryville players.

The company of young people of Maryville, Mo., who presented a local talent play in Clarinda last Friday evening made a decided hit with the production. The evening's entertainment was entitled, "A Night in Bohemia," and consisted of a novel ministrel show for the first of the evening's entertainment and was followed by a number of vaudeville acts following.

The part entitled "A Night in Bohemia" consisted of songs by the various people and of jokes. The music was fine and the chorus work took especially well.

A short one act comedy "Up in the Air" came next. There were five characters in this play all of whom did excellent work. The cross fire singing and talking act which followed took well. A piano trio followed that with a little program of a varied nature which proved as popular as any of the numbers. Some of their work was first class. The evening's entertainment wound up with a sextette from "Lucia" served "A'La Rag" and it proved most popular.

The entertainment was a good clean one of its kind and was interesting enough to hold the audience until after eleven o'clock. The house which Clarinda extended to her visitors was not as good as might have been. But this was due partially to the great number of attractions which were going on last week due to commencement season and it is hoped that Maryville will come again and give us another chance to prove ourselves better hosts.

HELPS FOR BUSY DAYS.

Sunday is too often the hardest day of all the week for the housewife, when it should be the day of rest. In many homes the Sunday dinner is planned with the idea of making the day as restful as possible, getting everything ready the day before. Even the meat may be roasted and served reheated, the salad made, the dessert made, and when it is time for the meal it may be quickly served, leaving an afternoon of leisure.

Monday, if the laundry work is done at home, which is the case in a great majority of homes, and by the house mother herself, should be a day of easy meals. When possible the meal that comes next may be partly prepared while the previous meal is being cleared away. For example, if hashed brown potatoes are to be served for supper or dinner, get them ready and put them in the icebox ready for cooking at the dinner hour.

Cucumbers cut in eighths and cooked in water until tender and served in a cream sauce are a delicious change when cucumbers are plentiful. These may be prepared ready for cooking and will be a tasty dish to serve with or on toast.

Dishes of cheese, such as souffles, are always welcome and are easily and quickly prepared.

Stewed tomatoes with rice, tomatoes stuffed with buttered crumbs and baked, rice with cheese are some of the ways to prepare a good dish and in little time.

The chafing dish is an oasis in the life of a busy woman for many dainty dishes may be served from it, and they are always a delight.

Steaks and chops are meats that are quickly prepared and should be a busy woman's resource on full days. Meats may be reheated, not so with egg and cheese dishes; they are made tough and indigestible when reheated.

A handful of vegetables left over will often give a plain soup an entirely different flavor.

BERKMAN SEEKS RECRUITS

Efforts Are Being Made to Maintain Peace in Tarrytown.

Tarrytown, N. Y., June 6.—Renewed efforts on the part of the local police department and Sheriff Doyle of Westchester county to maintain the peace of this village marked the close of the first week of the fight being waged by Alexander Berkman and others for the right to hold public meetings in protest of the policy pursued by John D. Rockefeller, Jr., with reference to the Colorado mine strike.

While Berkman was in Brooklyn and New York in search of recruits for an army which he declared will invade Tarrytown to hold a demonstration, Sheriff Doyle was marshaling a force capable of handling a crowd of 200 persons and if possible prevent a recurrence of last Saturday's clash, when thirteen Industrial Workers of the World were arrested.

French Aviators Killed.

Dijon, France, June 6.—Two French aviators, Lieutenant Gironne and Sapher Rioux, were killed near here. Peasants watching an aeroplane which had risen from the military aviation station and which was flying swiftly at an altitude of half a mile over the forest of Caquette, saw a burst of flame and heard an explosion. A few moments later the fragments of the aeroplane, to which the aviators were strapped, fell among the trees.

Half Dozen Buildings Burn.

San Francisco, June 6.—Half a dozen frame buildings, one of them a five-story apartment house, at California and Polk streets, were destroyed by fire. The loss, as nearly as it can be estimated now, is about $150,000. One rescued women expressed the belief that her mother, an invalid, had not escaped.

Anty Drudge Likes Sensible Women

Mrs Sensible—"Tillie will be sorry to miss you Anty Drudge; but I sent her upstairs to lie down a little while before she has to help get dinner. This evening she is going out with Charley Earnest, and even though we did get through our washing early, I thought it wouldn't hurt her to have a little rest."

Anty Drudge—"Tillie certainly has a good mother, Mrs. Sensible, and I can see that you are training her right. Fels-Naptha Soap is the only thing that could get through your large wash in a morning, even with two women working."

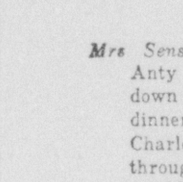
CARAMEL AS FLAVORING.

There is no flavor which is so cheap and so easy to prepare and withal so well liked as caramel flavor. The caramel custard is popular among all people where it is once tried, but many do not know of this wholesome and good flavor. To make the caramel put granulated sugar in a clean, smooth saucepan and stir constantly while it is melting, do not let it overbrown, add a few drops of water or more if it is to be bottled and kept for flavoring and coloring sauces, and then it is ready to use. If making a custard turn into the milk as soon as it becomes a golden color.



Sweet potatoes cooked in this caramel sirup in the oven are most delicious. Apples quartered and baked with the caramel added to them and basted over them while cooking is a most delicious way of serving apples. Then the fruit may be served with cream and sugar.

Caramel ice cream is a most delicious frozen dessert.

Caramel flavor in boiled frosting for filling in cake is a most delicious one. The sugar may be browned and water added to it, then add the flavoring to boiled sugar sirup, and pour over the whipped egg as in making any boiled frosting.

Caramel Cream.—Caramelize one-third of a pound of white sugar, add a few drops of water, stirring occasionally to keep the sugar from sticking, when it becomes a golden color turn it quickly into a quart of boiling hot milk. Beat the yolks of six or eight eggs, and pour over them the hot milk slowly. When the eggs are cooked set away to become cold before serving. This is a nice custard to serve with sponge cake.

When baked custards are liked pour into each cup before adding the custard enough of the caramel to coat the inside of the cup, then add the custard and cook. When they are turned out, the outside will be covered with the caramel. Serve with whipped cream.

ARMS LANDED AT TAMPICO

American Schooner Lands Munitions for Mexican Rebels.

INFORMATION AT WASHINGTON

State Department Officials Decline to Verify the Report, However—Rumor Current Protest Has Been Filed Against Delivering Arms.

Washington, June 6.—Advices reaching Washington that the American schooner Sunshine, from Galveston, had landed ammunition at Tampico for the Mexican constitutionalists without interference on the part of the United States or the Huerta government was received in official circles here without comment.

State department and navy department officials declined to verify the report, but from other sources it was learned that the presence of the Sunshine off Tampico, with arms aboard consigned to the constitutionalists, had been known to the Washington government for several days. In view of the fact that there had been considerable apprehension regarding the attitude the United States might take toward the landing of ammunition at this Mexican port, the actual delivery of munitions of war for the enemies of the Huerta government without interference was regarded with significance.

With the Cuban steamer Antilla en route from New York to Tampico with arms consigned to Carranza's forces, there has been much speculation as to what the United States would do in case the Huerta government should attempt a blockade of the port. Every indication, however, was that the United States would maintain its previously announced position that Tampico was an open port.

Should the Huerta gunboats at Puerto Mexico and Alvarado manifest any signs of moving toward Tampico, Admiral Badger was instructed to report at once to Washington. The Mexican vessels have since been kept under close surveillance.

Report of a Protest.

The movements of arms, pending results of mediation at Niagara Falls and the proposals to the constitutionalists to participate in the peace negotiations, have been followed by rumors of disapproval on the part of the South American envoys engaged in the effort to compose the Mexican situation. In fact there have been widespread reports that the mediators had protested against the United States permitting the delivery of ammunition to the constitutionalists at Tampico.

Secretary Bryan declared, however, that the state department had received no protest from the mediators and he also denied reports that Mr. Riano, the Spanish ambassador, who represents the interests of General Huerta in the United States, had protested against the delivery of munitions of war to the constitutionalists.

HISTORIC CHURCH BURNED

Campaign of Arson Continued in England by Suffragettes.

London, June 6.—The campaign of arson and attempts at destruction of property by means of bombs was continued by the militant suffragettes.

Breadsall church, a historic edifice near Derby, was destroyed and an amateurish bomb was found in Dudhope castle, near Dundee. The fuse of the bomb had been extinguished by the wind.

Sylvia Pankhurst, borne to the platform on an invalid chair, made another appearance at a suffrage meeting in Cannington and repeated her threat that she would lie on the steps of the house of commons without food or water until Premier Asquith consented to receive a deputation of her followers.

Ulsterites Get 3,000 More Rifles.

Belfast, June 6.—The army of the Ulster "volunteers" was strengthened by the addition of 3,000 Mauser rifles, as the result of a daring gun-running feat of an Irish yachtsman. A portion of the consignment was landed to the south of Donaghade, sixteen miles from Belfast, but most of the rifles were delivered straight on the quay at Belfast and the cases were removed under the eyes of the police by specially selected volunteers.

Kelly's Army in Indiana.

Fort Wayne, Ind., June 6.—Fifty-one tattered and footsore men, the remnant of Kelly's army, which left Sacramento, Cal., weeks ago, with Washington as its destination, reached Fort Wayne. They are quartered now at the police detention station under charges of vagrancy and Police Judge Keorr declared his intention of putting them to work.

Heat Wave Still Hangs On.

Kansas City, June 6.—Kansas, Oklahoma and western Missouri again sweltered under the heat wave. Sedalia reported 94 degrees and St. Joseph 93. In Kansas City the maximum was 90. In Kansas records for the year were set at Manhattan, with 97 degrees. Few prostrations were reported.

TRADE CONDITIONS BETTER

Jobbers Find a Broadening of Trade in the Northwest.

New York, June 6.—Bradstreet's says:

"Sentimentally and fundamentally, trade conditions are better even though irregularity is still in evidence. Jobbers' trade at many points outside of the southeast and particularly in the northwest, has broadened; larger sales of southern pig iron are noted; wool is active at strong prices; textile mills are fairly well employed; crop conditions have improved; railway traffic is heavier.

"On the other hand, finished steel takes tone principally from sentiment and not from any actual growth in business; employment is irregular; industrial operations, taken in a collective sense, are relatively slow.

"Failures for the week are 248; wheat exports, 4,802,639 bushels; bank clearings, $3,231,327,000, an increase of 0.4 per cent over last year."

ANTI-TRUST BILLS PASSED

Measures Go Through House by Nearly Unanimous Vote.

FAVORED BY ADMINISTRATION.

But Fifty-four Votes Recorded Against Clayton Omnibus Bill—Trade Commission Measure Is Passed Without a Record Vote Being Taken.

Washington, June 6.—All three bills on the administration trust legislation program passed the house and were sent to the senate for action. Opposition melted when the final test came and the motion went through quickly.

The interstate trade commission bill, the first measure on the administration trust legislation program, was passed by the house without a record vote.

The Clayton omnibus anti-trust bill, second on the program, was passed by a vote of 275 to 54. The house then voted on the third and last of the trust measures, the railroad capitalization bill, which passed, 325 to 12.

The clerk hardly had finished the last roll call before the members had settled down to consideration of the sundry civil appropriation bill, one of several supply measures that must be disposed of before the session ends. The adjournment problem now is squarely up to the senate, and the Democratic leaders on that side of the capitol are expected to agree upon a program in the near future.

Action on the trust bills in the house came unexpectedly. The three measures had been agreed to in committee of the whole after weeks of speech-making. When the trade commission bill came before the house for a final vote, Progressive Leader Murdock moved that it be sent back to the interstate commerce committee, with instructions to report the Murdock bill as a substitute. This was rejected, 151 to 19, and the pending bill was passed without a roll call. Then the votes on the other two measures were taken in rapid succession.

Representative White of Ohio was the only Democrat to vote against the Clayton bill, and all the Progressives voted for it except Representative Chandler of New York. Forty-three Republicans and sixteen Progressives joined the majority in supporting the measure.

TOLLS DEBATE NEARS END

Decks Cleared in Senate for Vote on Exemption Repeal.

Washington, June 6.—The senate cleared the decks for the vote on the tolls exemption repeal, and leaders were hopeful that general debate on the subject may be brought to a close today and the bill and all the amendments proposed to it disposed of early next week.

Senator Cummins concluded his speech on the subject and leaders hope that Senators Poindexter and La Follette, who are understood to have prepared speeches, will conclude before adjournment tonight. Then the way will be open for a vote on the amendments Monday, and it was believed that the bill itself might be reached Tuesday.

Another complication faced the senate in the Panama canal tolls exemption dispute when Senator Sutherland introduced as an amendment to the repeal bill his resolution for arbitration. The Sutherland resolution was approved by the foreign relations committee several days ago, but had no right of way before the senate. Its appearance as an amendment means that it must be voted on before the bill itself.

President Wilson is understood to have expressed an unwillingness to arbitrate before the repeal is passed and many senators who are standing with the president, but who favor arbitration, are in a quandary.

Hodges Denies Striking Mrs. West.

Topeka, June 6.—Governor George H. Hodges flatly denied he struck Mrs. Luella West of Wichita during a scuffle for the possession of certain parole papers in the governor's office on April 8 last. The governor was testifying in the suit brought by Mrs. West for $2,315 damages for an alleged assault and battery. It is expected the case will go to the jury today.
